LANGUAGES

Afrikaans

English

PROFILE

I'm a passionate software developer who came to the tech industry from a background in medical sciences. I moved into software development after earning a degree in medical bioscience so that I could combine my love of coming up with creative ideas with my analytical abilities.

WORK EXPERIENCE

Full-Stack Developer Intern

CapaCITI / ABSA

2024- Present

- **Proficiency in Front-end Technologies:**
 - HTML, CSS, and JavaScript.
 - Experience with front-end frameworks/libraries like React.js & Node.js
 - Understanding of responsive design principles and cross-browser compatibility.
- **Back-end Development Skills:**
 - Knowledge of server-side languages such as Node.js & JavaScript
 - Understanding of RESTful APIs and web services.
- **Agile Methodologies:**
 - Experience working in Agile development environments using tools like Microsoft Teams and/or Slack
- **Continuous Learning and Adaptability:**
 - Willingness to learn new technologies and keep up-to-date with industry trends.
 - Ability to adapt to changing requirements and technologies in a dynamic environment.
- **Soft Skills:**
 - Strong problem-solving and analytical abilities.
 - Effective communication skills for collaborating with team members
 - Time management skills to handle multiple tasks and deadlines effectively.

Laboratory Analyst

Integral Laboratories
